Dr. Chua Hong Teck is at present the Senior Advisor with RTI International (Malaysia). He has more than 35 years of experience in public and social policy analysis, health sector reform and healthcare financing. His last position in the public service was the Director of Healthcare and Low-Income Households in the Performance Management and Delivery Unit (PEMANDU) in the Prime Minister's Department. He held senior positions in Economic Planning Unit, Public Complaints Bureau (both in the Prime Minister's Department), Treasury (Ministry of Finance), various divisions in Ministry of Health and General Hospital Kuala Lumpur.

He was involved in developing and implementing many policies and projects such as the Modified Budgeting System (MBS), National Health Accounts (MNHA), Full Paying Patients (FPP), Health Industry Development while in Ministry of Health. He played a key role in many healthcare financing studies, presented paper and represented the country in meetings by WHO and other organisations in some of these areas. In EPU, he was instrumental in developing the policy directions for the 10th Malaysia Plan in health and social sector. He led the development of the medical devices, pharmaceutical, healthcare travel and seniors living industries with new policies, incentives, regulations and new entities in PEMANDU. He led the project for medical insurance for foreign workers. Dr. Chua also advised the Tanzanian Government in transforming their health services.

He was a consultant to the University Kebangsaan Malaysia (UKM) Health Technopolis project from 2016-2017 and is a member of Guidepoint Advisors since 2016. He is also a Senior Advisor with Eden-On-The-Park.
